

Barry Wilson - Candidate for District 2

In his professional career, Barry has earned a reputation as a natural leader with an exceptional ability to drive operations through forward thinking, leading high-performance teams, and implementing strategies that produce bottom-line results. Barry has strong negotiation skills and a proven ability to work across organizations. These skills are a must as District 2 spans two counties, three school districts, and several neighborhoods that have their independent challenges, but must work together towards common goals.

Barry believes that the best way to understand and solve a problem is to actively listen and be empathetic. Volunteering at the Rescue Mission and helping the less fortunate has strengthened these skills.

The Wilson family has been District 2 residents for 18 years. Lei Ann and Barry have been married for 22 years. Their three teenage children have lived in the River West Neighborhood their entire lives and attend Fossil Ridge High School. The Wilsons are extensively involved in high school sports and various other youth activities, including Arsenal Soccer and Pro Swing Fastpitch Softball. They also ski and enjoy other outdoor activities, especially the Poudre River Trail.

Barry holds a B.S. in Computer Science from Iowa State University and a M.B.A. from the University of Phoenix in Fort Collins.

After a successful 20-year career at Hewlett-Packard Company, Barry started his own business as a Licensed Health Insurance Agent for USHEALTH Advisors. His number one aspiration is to provide the greatest possible assistance to individuals, families, the self-employed, and small businesses planning for their future.
