

Nancy J. Salazar – Candidate for District 6

My name is Nancy Salazar, a proud Colorado native for 50 years! I am running for town council because I love living in Windsor and have a passion for helping people!

I believe this is a great opportunity to serve in a role where I can have a positive impact on the town's fast and continued growth while maintaining our small town feeling and beautiful community presence. I will promote the Town of Windsor and our existing businesses; while still committed to protecting our parks and open spaces. I will focus on our town's public safety and financial stability by bringing a new perspective and listening to ideas from our community and bringing them forward.

I've been employed at the City of Evans for five years as the Support Services and Flood Recovery Manager. I bring several years of human services experience gained while working at the County and State level, as well as experience in policy evaluation.

I have a Bachelor of Art's Degree in Criminal Justice and a Master of Arts Degree, Specializing in Adult Learning, Training and Development, from Regis University.

My husband and I moved to Windsor in 2015 and reside in South Water Valley where we appreciate spending time with family and friends. We enjoy the outdoors, golfing, watching movies and traveling.

I believe the biggest challenges facing the Town of Windsor today are:

- 1) The fast and continued growth the town is experiencing is one challenge. I believe the growth is a great opportunity; however, we must take a look at our current infrastructure, crowded roads, capacity of the town staff, housing and our public schools.
- 2) The oil and gas is another challenge when it comes to public safety.

Foremost, I will listen to ideas, concerns, and issues from our community and bring them forward. I will promote the Town of Windsor for potential new businesses, as well as existing businesses while still protecting our parks and open spaces by being cognizant of where development should happen and regulate that development within our town. I will concentrate on affordable housing by analyzing our future needs by continuing my involvement with the Windsor Housing Authority Board. I will concentrate on policies that promote and encourage public transportation to assist in high traffic. I will focus on reviewing current regulations that are in place for oil and gas development and ensure we have polices that are set to consider safe distances from homes and properties. I am personally committed to better our community and maintain our small town feeling and beautiful community presence!

I have served as a member of the Windsor Housing Authority Board since March 2016.

I am personally committed to better our community and would appreciate your vote on April 3rd. Thank you!
