Special Courses

Foam Roller Workshop

Do you have a foam roller or have you seen them here at the Recreation Center? Sure, you roll your quadriceps and IT bands, but the options with a roller are so much more than that. Would you like to learn how to use one to help ease your aches and pains? A foam roller can sometimes get into places you just can't stretch on your own. Yoga and fitness teacher Julia Lynne will spend time showing you the ins, the outs, and the ouches to the benefits of the roller in this hands-on workshop.

Myofascial Release Workshop

When paired with a yoga practice, myofascial release is very effective in releasing muscular tension and soreness, increasing range of motion, and working with scar tissue. This two-hour workshop begins with an overview of the function and role of fascia. You will learn the goals of myofascial release and what to avoid. Then, using a few props — tennis balls, yoga blocks, and blankets — we will dive into specific instruction for the whole body: feet, legs, hips, neck, and shoulders.

TRX

Born in the Navy SEALs, Suspension Training body-weight exercise develops strength, balance, flexibility, and core stability simultaneously. It requires the use of the TRX Suspension Trainer, a performance training tool that leverages gravity and the user's body weight to complete hundreds of exercises. This class will also include the TRX Rip Trainer®, laser-focused on improving core strength and rotational power while boosting endurance with a cardio element.
